

Symposium der Schweizerischen Kopfwehgesellschaft

Auditorium Maurice E. Müller, Inselspital Bern, 30.11.2023, 11:00 - 17:00 Uhr
Neurologie | Insel Gruppe | Inselspital

Dear colleagues,

The Swiss Headache Society SHS cordially invites you to the 15th Headache Symposium.

The Scientific Committee has put together a multi-faceted and interesting program revolving around the eminently important topic of “Chronic Headache”. We are delighted to welcome two internationally renowned experts, Professor Lars Bendtsen from Denmark and Professor Gisela M. Terwindt from the Netherlands, as keynote speakers. In addition to the main sessions, we would also like to invite you to our industry partners’ symposium that transports news about the treatment of migraine in brief “flash sessions”.

We are looking forward to welcoming you in Bern!
