

Workshop «Biological grafts in bypass surgery»

May 24, 2018, 10:00 – 15:00 h

Course room 1, Pediatric clinic, Inselspital, Bern

Information and free registration (deadline May 22, 2018):

University Hospital Bern, Inselspital,
Department of Cardiovascular Surgery, CH-3010 Bern
Phone: +41 31 632 26 02
Email: gefaesschirurgie@insel.ch

Course Directors

Prof. J. Schmidli, Bern
Dr. V. Makaloski, Bern

Course Faculty

PD Dr. S. Déglise, Lausanne
PD Dr. F. Dünschede, Mainz
Dr. S. Koulas, Wien
PD Dr. A. Neufang, Wiesbaden
PD Dr. Z. Rancic, Zürich
PD Dr. S. Sixt, Bern
Dr. A. Stellmes, Luzern
Dr. T. Wyss, Bern

Program

10:00–10:30	Registration/Coffee	
10:30–10:35	Welcome/Opening	<i>J. Schmidli</i>
10:35–10:50	ESC guidelines 2017 on PAD: overview	<i>V. Makaloski</i>
10:50–11:10	The role of bypass surgery in the endovascular era	<i>Z. Rancic</i>
11:10–11:30	Peripheral bypass with xenogenic material: patency & outcome	<i>F. Dünschede</i>
11:30–11:50	Omniflow II graft in bypass surgery	<i>S. Déglise</i>
11:50–12:10	Long-term functionality and biodegeneration of the biological grafts	<i>A. Neufang</i>
12:10–13:45	Lunch + practical exercise with biological grafts on a model	
13:45–14:05	Biological grafts for infected peripheral bypasses	<i>S. Koulas</i>
14:05–14:20	Xeno-pericardial material in infected aortic field	<i>T. Wyss</i>
14:20–14:35	Anticoagulation after use of biological material	<i>S. Sixt</i>
14:35–14:50	The use of biological grafts from a DRG perspective	<i>A. Stellmes</i>
14:50–15:00	Final comments and meeting adjourn	<i>J. Schmidli</i>
